Summary

Full Stack Developer specialized in the MERN stack and AI integration, with practical experience delivering real projects for clients, including an AI-powered support system (Nazafaa) and a full-stack affiliate platform with Gemini AI integration. Skilled in building scalable backend APIs and modern frontend applications (React/Next.js). Flexible to focus on either backend or frontend roles based on company needs, with a passion for clean code and efficient systems.

Skills

Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3, JavaScript (ES6+) , TypeScript (basics)

Backend: Node.js, Express.js, RESTful APIs, JWT, MongoDB, Mongoose , SQL/MySQL (basics)

AI Integration: OpenAI (API), Gemini(API) ,NLP prompt engineering, AI-based automation

Tools & Platforms: Git, GitHub, Postman, VS Code, Railway,Vercel, Linux/WSL

Computer Science Fundamentals: C++ (basics), Data Structures & Algorithms

Soft skills : problem-solving , communication, team collaboration, time management, Attention to detail

Key Projects

1. Affiliate Marketing Platform with AI Guidance

Jan 2023 – Mar 2023

Developed a complete affiliate system with an AI chatbot assisting and training marketers.

Improved onboarding efficiency by 60% through automated training workflows.

Built secure authentication, admin tools, and affiliate tracking logic.

Tech: Next.js, Tailwind CSS, Node.js, Express.js, MongoDB Atlas

Live: <https://elmahdy.vercel.app>.

2. E-commerce Backend System

Sep 2024 – Dec 2024

Built a scalable backend with JWT authentication and multi-role access.

Reduced API response time by **35%** through optimized MongoDB queries & pagination.

Delivered a clean API contract for seamless frontend integration.

Tech: Node.js, Express.js, MongoDB, JWT .
